

# My Heart Is a Bar

## Old Dominion

Well I have a reputation of being a late night destination  
Like I'm some kind of vacation for lost souls  
My door is always open, they come in lonely, they come in broken  
To figure out where they're going, then they go  
And when they don't need me no more  
I'm left sweeping up the floor My heart is a bar and I'm closing it down  
So find somewhere else to get drunk in this town  
I'm tired of being a shoulder and never having one around  
My heart is a bar and I'm closing, I'm closing it down  
Ooh-ooh I've come to the conclusion that true love is an illusion  
You're being used or you're using someone else  
Well I'm sick of all the noise, so kill the lights and pay the boys  
Fire the band and take the poison off the shelf  
C'est la vie, farewell  
My heart is a bar and I'm closing it down  
So find somewhere else to get drunk in this town  
I'm tired of being a shoulder and never having one around  
My heart is a bar and I'm closing, I'm closing it down I've taken my last fall  
I'm making my last call My heart is a bar and I'm closing it down  
So find somewhere else to get drunk in this town  
I'm tired of being a shoulder and never having one around  
My heart is a bar and I'm closing, I'm closing  
My heart is a bar and I'm closing it down  
So find somewhere else to get drunk in this town  
I'm tired of being a shoulder and never having one around  
My heart is a bar and I'm closing, I'm closing it down  
Woo-hoo, I'm closing it down  
Woo-hoo, I'm closing it down  
Woo-hoo  
Woo-hoo  
Woo-hoo, woo-hoo  
Woo-hoo, woo-hoo
