

Standing Still

Jewel

Cutting through the darkest night are my two headlights

Trying to keep it clear, but I'm losing it here

To the twilight

There's a dead end to my left

There's a burning bush to my right

You aren't in sight

You aren't in sight

Do you want me

Like I want you?

Or am I standing still

Beneath the darkened sky

Or am I standing still

With the scenery flying by

Or am I standing still

Out of the corner of my eye

Was that you

Passing my by

Mother's on the stoop

Boys in souped up coupes

On this hot summer night

Between fight and flight
Is the blind man's sight
And a choice that's right
I roll the window down

Feel like I'm
I'm gonna drown
In this strange town
Feel broken down
I feel broken down
Do you need me
Like I need you

Or am I standing still
Beneath the darkened sky
Or am I standing still
With the scenery flying by
Or am I standing still
Out of the corner of my eye
Was that you
Passing my by

A sweet sorrow is
The call tomorrow
A sweet sorrow is

The call tomorrow

Do you love me

Like I love you?

Or am I standing still

Beneath the darkened sky

Or am I standing still

With the scenery flying by

Or am I standing still

Out of the corner

Of my eye

Was that you

Passing me by?

Are you passing me by?

Passing me by

Do you want me?

Passing me by

Do you need me

Like I need you too

And do you want me

Like I want you?

Passing me by

Are you passing me by

Or am I standing still?
