

# Like You've Been There Before

Jameson Rodgers

[Verse 1]

You said just put the ball in the ref's hand  
When you cross that goal line  
Just lay the bat down, touch 'em all  
When you go yard for the first time  
You said I see the rebel in you like me  
You're gonna stir up a little hell  
Remember stand tall and chest out  
When they throw you in the jail cell

[Chorus]

Like you've been there before  
Like it ain't no thing  
Like it ain't your first trip around that block  
Keep a grip on your cool like a ball and a chain  
On that ankle, a convict breaking rock  
Roll with it, don't let it show  
Like it ain't your first rodeo  
Like the Cowboys in '94  
Like you've been there before

[Verse 2]

You said play a little hard to get  
When you find the one you need  
And don't take what she don't wanna give  
And boy take it easy in the backseat

[Chorus]

Like you've been there before  
Like it ain't no thing  
Like it ain't your first trip around that block  
Keep a grip on your cool like a ball and a chain  
On that ankle, a convict breaking rock  
Roll with it, don't let it show  
Like it ain't your first rodeo  
Like Earnhardt in '94  
Like you've been there before  
That's right

[Verse 3]

You said I pray you find a girl, son  
Like your mama, she's the real deal  
The kind that's in it for the long run  
The kind that makes heaven feel

Like you've been there before

[Chorus]

Like you've been there before

Like it ain't no thing

Like it ain't your first trip around that block

Keep a grip on your cool like a ball and a chain

On that ankle, a convict breaking rock

Roll with it, don't let it show

Like it ain't your first rodeo

Like a soldier going back to war

Like you've been there before

Like the Cowboys in '94

Like you've been there before

[Outro]

Yeah

Like you've been there before
