

# Never Told

J. Cole

Is the whole world gunning for me, or is it just all in my mind?  
If you want it, come and see me  
I ain't got nothing but time one day you gonna set me free  
But first you gotta let me shine Niggas ain't high as I be  
See, look mamma I'm flyin  
To Neverland, Neverland, Neverland I'll probably never land Neverland, Neverland,  
noo, I'll never never land  
Check my fortune cookie, it said Cole World Could that mean it's meant to be?  
So much drive a nigga coulda been a chauffeur  
This life is fucking with me mentally  
Fake niggas try to act like they a friend to me  
I treat you lames how I see you lames, enemies my good girl say they wanna the inner me my  
bad girl sayin' fuck all that enter medouble shots, Hennessy bring out bad tendencies try to cut  
something, need a volunteer, Tennessee  
Anything to take my mind off I logged on make then muthafuckas sign off I got the dick they'll  
never climb off  
I switch watches yet I never took time off (time off) I don't know what's worse, fake friends or  
fake fans  
Both kissing ass for the chance to shake hands and damn  
Is the whole world gunning for me, or is it just all in my mind?  
If you want it, come and see me I ain't got nothing but time one day you gonna set me free  
But first you gotta let me shine Niggas ain't high as I be  
See, look mamma I'm flyin  
To Neverland, Neverland, Neverland I'll probably never land Neverland, Neverland,  
noo, I'll never never land  
I'm sortin through this, organized confusion to get my this together  
This shit is sounding like a movie you could watch forever  
I gotta make it to the top, it's either now or never  
These other niggas can't adapt because they not as clever The shit they talk is more expensive  
but I doubt its better She let that nigga make it rain but guess who got it wetter Cole World,  
snow flurries in the hottest weather  
And, so sick they can't fix this with medi-cine We at yo door and yes gotta let us in it's what  
you want, I whet your appetite  
Cole hit the scene now I'm what everyone rapping like Shame you feel you have to bite  
Still ain't nobody snapping right pedal to the metal as I'm speeding through the traffic lights  
Bitch I gotta catch a flight, come on already Still fight like I'm the underdog, I'm on already  
Got a few niggas we bout to prove wrong, ya'll already already Is the whole world gunning for  
me,  
or is it just all in my mind?  
If you want it, come and see me  
I ain't got nothing but time one day you gonna set me free  
But first you gotta let me shine Niggas ain't high as I be

See, look mamma I'm flyin  
To Neverland, Neverland, Neverland I'll probably never land Neverland, Neverland,  
noo, I'll never never land
