

# Champagne Problems

Meghan Trainor

[Chorus]

I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems

[Verse 1]

Can't believe my Uber's late again (Oh, no, no, no)  
Gon' be late for dinner with my friends (Oh, no, no, no)  
These shoes hurt bad, can't feel my toes (Oh, no, no, no)  
And I forgot my jacket back at home (Oh, no, no, no)

[Pre-Chorus]

But I can't complain at all  
(Life's too short for that, life's too short for that)  
No, I can't complain at all (Life's too short for that)

[Chorus]

I got champagne problems (Oh), champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems (Champagne), champagne problems  
So pour a glass and let's drink up all my champagne problems

[Verse 2]

My new Wi-Fi doesn't seem to work (Oh, no, no, no)  
No, no internet, that's the worst (Oh, no, no, no)  
And my iPhone always seems to die (Die) (Oh, no, no, no)  
Right before I hit reply (Oh, no, no, no)

[Pre-Chorus]

But I can't complain at all  
No no, life's too short for that (Life's too short for that)  
No, I can't complain at all (Life's too short for that)

[Chorus]

I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems (Yes, I got 'em), champagne problems  
So pour a glass and let's drink up all my champagne problems

[Bridge]

If you got champagne problems, drink them up  
If you got champagne problems, drink them up  
If you got champagne problems, drink them up  
If you got champagne problems, drink them up

[Chorus]

I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems  
I got champagne problems, champagne problems  
So pour a glass and let's drink up all my champagne problems

[Outro]

Oh, oh  
Let's drink up all my champagne problems  
My champagne problems  
My champagne problems, hey  
My champagne problems  
Mmm, mmm
