

The Open Sea (feat. YOUNOTUS)

GoodLuck

If our love was the open sea
You never get lost with me
You take it deep into the blue
You got what I'm looking for
Coz I have never been lost before
I want to get deeper into you
Can we do this all night alright
can we all together
I wanna get deeper into
Can we do this all night
Can we live forever
I wanna get deeper into you
I our love was an open door
You would walk inside for sure
You keep me locked up outside of you
Don't know but I can't decide
But I wanna get lost tonight
I wanna go deeper into you
Can we do this all night alright
Can we all together
I wanna go deeper into you
Can we do this all night alright
I wanna go to a place that you want me too
I wanna go deeper into you
I gotta see who you are
Ever heard every scar you can see me too
I wanna get closer into
Don't forget who you are
when I see you like the others do
I wanna go deeper and deeper and deeper and deeper
Can we do this all night alright
Can we all together
I wanna go deeper into you
Can we do this all night alright
Can we live forever
I wanna go deeper into
Can we do this all night alright
Can we all together
I wanna go deeper into you
Can we do this all night alright
Can we live forever

I wanna go deeper into you
