

Body to Body (feat. Imani Williams)

Mike Perry

I'll stay, yeah, I'll stay 'til the night's run out
Hold me, just hold me 'til the lights fade out We could we something, I know that it's true, baby
With every move, I was made just for you, baby, oh One touch and we're rocking body to body
My love was made just for you
Even when the music fades, I stay with you night to day
Oh, baby, we're rocking body to body Baby, just you, oh
Baby, don't let go (don't let go)
Keep on
We're rocking body to body
Heartbeat, my heart beats when your hand's on mine
Slowly, yeah slowly, can we call in time? We could we something, I know that it's true, baby
With every move, I was made just for you, baby, oh One touch and we're rocking body to body
My love was made just for you
Even when the music fades, I stay with you night to day
Oh, baby, we're rocking body to body
Baby, just you, oh
Baby, don't let go (don't let go)
Keep on
We're rocking body to body
Baby, just you, oh
Body to body
Baby, just you, oh
We're rocking body to body
(Body to body)
