

Say It All

Liam Payne

[Intro]

Yeah

Uh

[Verse 1]

Say what you want, say what you want, girl, you got me
Know what I want, ?know? what I want, ?now that just leaves you
All of?the shit, all of the bliss, tell me something real
Tell me something real

[Pre-Chorus]

Sometimes it's bad, you know that I notice
We go in and out of focus
Know what you wanna ask me
Baby, I know that you're nervous
When I'm gone, everything changes
Walls going up like we strangers
Took me forever to say this

[Chorus]

Baby, we should say it all, say it all
There's beauty in these broken walls, broken walls
Holding back is criminal, criminal
Baby, we should say it all, say it all
Yeah, baby, we should say it all, say it all
There's beauty in these broken walls, broken walls
One of us should make the call, make the call
Baby, we should say it all, say it all

[Verse 2]

Sick and tired of these days and nights when you just ain't around
Reaching for somebody else, but then I know what I found
Don't know why I don't say it more than I do but
Everyone's selfish, you know, oh

[Pre-Chorus]

Sometimes it's bad, you know that I notice
We go in and out of focus
Know what you wanna ask me
Baby, I know that you're nervous

When I'm gone, everything changes
Walls going up like we strangers
Took me forever to say this

[Chorus]

Baby, we should say it all, say it all
There's beauty in these broken walls, broken walls
Holding back is criminal, criminal
Baby, we should say it all, say it all
Yeah, baby, we should say it all, say it all
There's beauty in these broken walls, broken walls
One of us should make the call, make the call
Baby, we should say it all, say it all

[Bridge]

Sick and tired of these days and nights
Yeah, yeah, yeah, yeah
Sick and tired of these days and nights
Yeah, yeah, yeah, yeah
Sick and tired of these days and nights
Yeah, yeah, yeah, yeah
Sick and tired of these days and nights
Yeah, yeah

[Chorus]

Baby, we should say it all, say it all
There's beauty in these broken walls, broken walls
Holding back is criminal, criminal
Baby, we should say it all, say it all
Yeah, baby, we should say it all, say it all (Oh, oh, oh)
There's beauty in these broken walls, broken walls
One of us should make the call, make the call (Say it all)
Baby, we should say it all, say it all (Oh)

[Outro]

Say it all, say it all (Say it all)
Say it all, say it all (Girl, say it all, say it all)
Make the call, make the call (Just gotta)
Baby, we should say it all, say it all (Ooh, ooh, ooh)
