

Shoulder

Enon

in the flesh

you got me high

you got me high

i feel your heartbeat still all night

boy

you want the one thing

you're a beautiful panther

inside your bedroom

outside we can't

i feel excited when you cursed me

how are you?

i'm feeling fine

except you got me high that i can't sleep at night

you want the one) thing

slider

you pitch your fastball straight from your shoulder

you want the one) thing

you're a beautiful panther

no one can strike me like you do

do to you
