

You're My Favorite

Gwen Stefani

I'm pretty simple but I have explored
Thought I had found it but I wasn't sure
Always a feeling that there could be more, could be more But I've been there, done that, bought
it, tried it more than I can count
Choke it, stirred it, broke it, smoked it more than I can count But out of everything you're my
favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out, finally worked this out
'Cause out of everything, you're my favorite
The way you kissed me wasn't typical
Take me out of my body something spiritual
Think I need seconds, maybe thirds or fourths, oh But I've been there, done that, bought it, tried
it more than I can count
Choke it, stirred it, broke it, smoked it more than I can count But out of everything you're my
favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out, finally worked this out
'Cause out of everything, you're my favorite Momma can I keep him?
I promise I'll take care of him
Momma can I keep him?
I promise I'll take care of him But I've been there, done that, bought it, tried it more than I can
count
Choke it, stirred it, broke it, smoked it more than I can count
But out of everything you're my favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out, finally worked this out
'Cause out of everything, you're my favorite
