

# Different

## Pendulum

We see the shadows that  
are falling from your eyes,  
Draining your face of  
everything but the disguise Don't hide baby, let them see  
your true colours  
Don't mind the camera,  
let them see your  
black heart tonight Don't hide, baby, show them  
just how deep it goes  
Don't mind the cameras,  
let them see your  
black heart, baby!  
You've been running  
from the start,  
They told me that time  
has only done you wrong. [Chorus]  
We are going to a different place,  
We're taking everything we can,  
There's no expression  
left upon our face,  
'Cause time is running out so fast,  
We're sinking in the sand. You've been talking  
from the heart,  
Saying that I can't be  
away from life.  
[Chorus]  
We are going to a different place,  
We're taking everything we can,  
There's no expression  
left upon our face,  
'Cause time is running out so fast,  
We're sinking in the sand. We're sinking in the sand.  
We're sinking in the sand.
