

# Woosah (feat. Juicy J & Twista)

## Jeremih

Lights low, get lit  
Get drunk, clothes off  
Mouth closed, take dick  
Weed loud, twist up  
Lace up, legs up  
Throwback, look back  
Woosah, get that  
Lights low, get lit  
Get drunk, clothes off  
Mouth closed, take dick  
Weed loud, twist up (I love a chick that can smoke)  
Lace up, legs up  
Throwback, look back  
Woosah, get that (tell her man)  
I don't mind  
It happens every time  
It happens every time  
When you put that ass on my face  
Feel like I'm 'bout to drown And no help is around I ain't worried about no other bitch, you got  
me  
Use them lips you know I love you kiss, my body  
Way you throw when you on all four, my goddie  
Can you do it on the dick I didn't know, remind me  
Slip and slide you know that's how you get, around me  
Speed it up I see you want to test, my 'Rarri True you know we spending through this flip, you  
got me  
Cause all I know is fucking you the shit  
Lights low, get lit  
Get drunk, clothes off  
Mouth closed, take dick  
Weed loud, twist up  
Lace up, legs up  
Throwback, look back  
Woosah, get that  
Lights low, get lit  
Get drunk, clothes off  
Mouth closed, take dick  
Weed loud, twist up Lace up, legs up  
Throwback, look back  
Woosah, get that She say she like the way I light it  
We'll roll some weed let me ignite it  
Ain't no pussy like your pussy the way I like it

The way you fuck me I might buy it  
 Rub on your titties some more  
 I throw this cash on the floor  
 You give me a private show I put my dick in front row  
 Freaky ass, turn the cameras on  
 Ride this bone, fuck me to this song  
 I might take you home, now roll some more baby I ain't worried about no other bitch you got me  
 Use them lips you know I love you, kiss my body  
 Way you throw when you on all four my goddie Can you do it on the dick I didn't know remind  
 me  
 Slip and slide you know that's how you get around me  
 Speed it up I see you want to test my 'Rarri  
 True you know we spending through this flip you got me  
 Cause all I know is fucking you the shit Lights low, get lit  
 Get drunk, clothes off  
 Mouth closed, take dick  
 Weed loud, twist up  
 Lace up, legs up  
 Throwback, look back  
 Woosah, get that  
 Lights low, get lit Get drunk, clothes off  
 Mouth closed, take dick  
 Weed loud, twist up  
 Lace up, legs up  
 Throwback, look back  
 Woosah, get that First I tell her I like my bedroom when she sleeping with me  
 Then I'mma tell I'll get it wet if I let her get freaky with me  
 You be telling her whatever you want  
 Verbally or with your body wither which way  
 I want to get with you so come creeping with me  
 Through the corridors of the hotel on the way to the suite  
 Look at you for seat, go ahead start it off  
 Room or kitchen cause it ain't that far to walk  
 Don't be tripping take that Ferrogamo off  
 Look at you naked just for a second  
 Then take off our clothes then go to the bed Then lay on my back cause I heard you be the shit  
 So come show me what you can do with the dick  
 I lick on that pussy I'll open the crack  
 How we be on each other we got an energy  
 The way we freak on each other we got a chemistry  
 I have you kiss on my body I'll have you licking me  
 I all I have to say is fucking you was the shit to me  
 I ain't worried about no other bitch you got me  
 Use them lips you know I love you, kiss my body  
 Way you throw when you on all four my goddie  
 Can you do it on the dick I didn't know remind me  
 Slip and slide you know that's how you get around me  
 Speed it up I see you want to test my 'Rarri  
 True you know we spending through this flip you got me

Cause all I know is fucking you the shit  
Lights low, get lit  
Get druck, clothes off  
Mouth closed, take dick  
Weed loud, twist up  
Lace up, legs up
