

# Downtown

## Half an Orange

[Verse 1]

I'm coming out into the light

And I'm holding on to my life

Well on this stage, where they want change

We'll show them what we became

[Chorus]

Well take me downtown to the crowd

So I can hear my name called

Well take me downtown to the crowd

I want to hear my name called

[Verse 2]

I know I'll fail most of the time

But if you could stay by my side

Maybe well see what we can be

If we give ourselves the opportunity

[Chorus]

Well take me downtown to the crowd

So I can hear my name called

Well take me downtown to the crowd

I want to hear my name called
