Cherry Stem

Walker Hayes

She picked that cherry out of her Coke
And put that stem in her pretty little mouth
And at that supper tide in her bowl
Before I even started to count

And ever since she's been twisting my heart around
She loves me in then she spits me out

Whoa, I'm just her cherry stem, I'm just her party trick
She only wants me when she needs a sugar fix
I'm all tied up in knots, hanging out on a limb
With all the love I've got, I'm just her cherry stem

What I oughtta do, what I should've done
It don't matter now 'cause it's too late
I've kissed her lips and now I can't run
'Cause I know how good they taste

She got me whipped by the tip of her tongue
And now I'm too tangled to come undone

Whoa, I'm just her cherry stem, I'm just her party trick
She only wants me when she needs a sugar fix
I'm all tied up in knots, hanging out on a limb
With all the love I've got, I'm just her cherry stem
Cherry stem

I'm just her cherry stem, I'm just her party trick
She only wants me when she needs a sugar fix
I'm all tied up in knots, hanging out on a limb
With all the love that I've got, I'm just her cherry stem

I'm just her cherry stem, I'm just her party trick
She only wants me when she needs a sugar fix
I'm all tied up in knots, hanging out on a limb
With all the love that I've got, I'm just her cherry
I'm just her cherry, I'm just her cherry stem
