

Good Nights (feat. Mascolo)

Whethan

Back in Colorado baby
Seventeen years, we were childish playing
We had time to make good nights
We push back all our problems lately
Polaroid shots in the mountains, baby
We had time to make good nights We were high
We had a radio, love
We said we'd never ever ever let it go, no
And I'm alright
We were perfect as fuck
Making dreams about our loves up in the stars
Yeah yeah babe
Yeah yeah babe
And don't you ever go, don't you ever go, darling
'Cause you're all that I know, you're all that I know
Why did you change your mind, and end the pain
And now I'm on my own, now I'm on my own, baby
I'll call you on the phone, call you on the phone, baby
I just will call 'cause I'm away
Yeah yeah babe Someday I'll be patient, baby
Maybe our minds wouldn't be that hazy
We'd have time to make good nights
Look back through our rearview mirror
Saturday lights couldn't get much clearer
We'd have time to make good nights
We were high
We had a radio, love
Said we never ever, ever let it go, no
And I'm alright
We were perfect as fuck
Faking dreams about our loves up in the stars
Yeah yeah babe
Yeah yeah babe And don't you ever go, don't you ever go, darling
'Cause you're all that I know, you're all that I know
Why did you change your mind, and end the pain
And now I'm on my own, now I'm on my own, baby
I'll call you on the phone, call you on the phone, baby
I just will call on 'cause I'm away Oh, I feel the days
I feel the nights in every way
You break me down
Your perfect lines, they forgive it all
Oh, I feel the days

I feel the nights in every way
But maybe our good nights have faded fast
