

Creation (feat. Vök)

Seven Lions

Looked inside the emptiness
Far away from creation
Forever floating on our own I am the source of it all
Beginning to open
to creating chemicals And I want you to feel me
And I want you to know
I am everywhere you go
Can't hide from me no more
I am everywhere, everywhere, everywhere you go
And I want you to feel me
And I want you to know
I am everywhere you go
Can't hide from me no more
I am everywhere, everywhere, everywhere you go
Look inside the emptiness
Fall away from creation
Forever floating on our own
I am the sun, the only one
Which you trust till time is done
So far away, so far away And I want you to feel me
And I want you to know
