

Opportunity (Sia Version)

Sia

[Verse 1:]

Under the glow of the very bright lights
I turn my face towards the warm night sky
And I'm not afraid of a thousand eyes
When they're above, five hundred smiles

[Pre-Chorus 1:]

Oh, I used to think
(She used to think)
What wouldn't I give
(What wouldn't she give)
For a moment like this
(For a moment like this)
This moment, this gift

[Chorus:]

Now look at me and this opportunity
Is standing right in front of me
But one thing I know it's only part luck and so
I'm putting on my best show
Under the spotlight I'm starting my life
Big dreams becoming real tonight
So look at me and this opportunity
You're witnessing my moment, you see

[Verse 2:]

Now I find myself here and it's time
This is real and it's a goldmine
I'm not afraid to fly
When it's above five hundred smiles

[Pre-Chorus 2:]

Oh, I used to think
(She used to think)
What wouldn't I give
(What wouldn't she give)
For a moment like this
(For a moment like this)
This moment, this gift

[Chorus:]

And now look at me and this opportunity
Is standing right in front of me
But one thing I know it's only part luck and so
I'm putting on my best show
Under the spotlight I'm starting my life
Big dreams becoming real tonight
So look at me and this opportunity
You're witnessing my moment, you see

My big opportunity
I won't waste it, I guarantee
