

# Looking for a Reason

## Little Big Town

[Chorus]

Looking for to make some sense out of nothing  
Looking for the hunger to hang on  
Looking for to know if you're really worth it  
Looking for a reason not to be gone

[Verse 1]

Your signs are fading, baby  
I can't read them anymore  
Can't you see where I'm standing, baby  
I got one foot out the door  
You better show me something fast  
'Cause my patience for you aren't going to last

[Chorus]

Looking for to make some sense out of nothing  
Looking for the hunger to hang on  
Looking for to know if you're really worth it  
Looking for a reason not to be gone

[Verse 2]

If there isn't nothing there  
Well, that's my time you are wasting  
If you say you're giving all you've got  
Well, that's my chain your yanking  
Love is on a slippery slope  
Barely hanging on at the end of my rope

[Chorus]

Looking for to make some sense out of nothing  
Looking for the hunger to hang on  
Looking for to know if you're really worth it  
Looking for a reason not to be gone

[Verse 3]

So tell me what you're going to do keep me around  
And baby, whatever it is you better do it now, now, now

[Chorus]

Looking for to make some sense out of nothing

Looking for the hunger to hang on  
Looking for to know if you're really worth it  
Looking for a reason not to be gone
