

Body 2 Body (feat. Chris Brown)

Ace Hood

Baby, you don't have to try to read my mind,
Cause you know I wanna get it in,
And tell me why we would think about,
If you wanna feel my body
We can be body to body,
Body to body, body to body,
I don't need to rush you girl,
We should be body to body!
Body to body, body to body,
Body to body, body to body!
Can see your body is soaking bath water,
No panties on, come on'
Wrap up your hair, leave on your heels,
Kissing you while I whisper shawty how it feels?
'wonder, oh, you're thinking dirty,
I was thinking you can rub, miss kentucky dirty!
I dream about it, let's take advantage
My body on your body, hope that you can manage!
Gotta moan it, damn, it feels good,
Let her now I'm still hood,
Damn right, so... real,
... she know the deal!
Baby, you don't have to try to read my mind,
Cause you know I wanna get it in,
And tell me why we would think about,
If you wanna feel my body
We can be body to body,
Body to body, body to body,
I don't need to rush you girl,
We should be body to body!
Body to body, body to body,
Body to body, body to body! Ah, so quit the contemplating, skip the conversation,
... your lip just gave me confirmation!
Was that channel 5? very sexy fragrance,
Are those your real eyes?
Can tell you're partially asian.
But I know your body got me focused, I'm just so sedated
And I guarantee I do you better than your'
Body to body, where is the sunny
I hit the spot I'll make you tsunami.
Change up the sheets, no time to sleep,
Asked what she's thing she replied that I'm a beast!

Yeah she replied that I'm a beast,
Got me locked between the sheets and leave me in the streets. Baby, you don't have to try to
read my mind,
Cause you know I wanna get it in,
And tell me why we would think about,
If you wanna feel my body
We can be body to body,
Body to body, body to body,
I don't need to rush you girl,
We should be body to body!
Body to body, body to body,
Body to body, body to body! We'll make love on the floor, you kissing my tattoos,
I'm pulling your hair you scream my name,
Call me daddy, baby I got you!
Go get it, you better lay down, down, down,
Girl, are you ready, cause I'm gonna want you face down, down, down!
Right now I'll fuck you! Baby, you don't have to try to read my mind,
Cause you know I wanna get it in,
And tell me why we would think about,
If you wanna feel my body
We can be body to body,
Body to body, body to body,
I don't need to rush you girl,
We should be body to body!
Body to body, body to body,
Body to body, body to body!
