

# Religious Love

R. Kelly

Here I sit waiting on you baby, I miss you  
Please, come back to me A religious love for you baby, every night I pray  
That heaven will send you back to me  
Baby you're all I ever needed Dearly beloved, why did you go?  
When being with you forever is all I hoped  
Slowly the rain is falling in our home  
Come back and start right from going wrong  
I'll be still until I hear from you  
And I'll be waiting until you return this message A religious love for you, baby, every night I  
pray  
That heaven will send you back to me  
Baby you're all I ever needed  
A religious love for you baby, every night I pray  
That someday I'll have you for my wife  
Baby you are my life, please believe me  
For only God knows how much I miss you  
And for us to be as one it takes two  
So don't you go dying on me not right now  
Please change this impossible to somehow  
I'll be still there until I hear from you  
And I'll be waiting until you return this message A religious love for you, baby, every night I  
pray  
That heaven will send you back to me  
Baby you're all I ever needed  
A religious love for you baby, every night I pray  
That someday I'll have you for my wife  
Baby you are my life, please believe me In the middle of the night, I'll be calling on you  
Every single breath I take I hope to see you there  
If ever you need a friend, baby I am here  
Don't forget to remember me  
Oh baby come to me, don't you leave me lonely  
I need you here with me so return this message  
A religious love for you, baby, every night I pray  
That heaven will send you back to me  
Baby you're all I ever needed  
A religious love for you baby, every night I pray  
That someday I'll have you for my wife  
Baby you are my life A religious love for you, baby
