

Madonna's Bombing Sarajevo

Alice Donut

Jagged, abrupt fragments devoid of meaning
Randomly disconnected without context
A constant barrage of clutter filling your face now
Randomly interconnected yet insane
Suck it down - Suck it down
Suck it down - Suck it down Your eyes - Your ears - Your face now
A constant barrage of clutter filling your head
Jagged, abrupt fragments without meaning
Pick and choose - Pick and choose
Pick and choose - Pick and choose - Down!
Suck it down - Suck it down
Suck it down...
Tied umbilically to their headphones
In a state of sonic ecstasy
I find these 'Pod people quite creepy
Depressing - Insane
Madonna, Cher and Bono
Gwyneth Paltrow bombing Sarajevo
Was my reaction genuine?
Or was it mimicked from an episode of 'Friends'?
It's been a slow, crooked rise
To the heights of indie-rock obscurity
The fall though, was quite rapid & unnoticed
And unreported by the press
Tied umbilically to sonic ecstasy
Pod people - Depressing, creepy, insane
Madonna, Cher and Bono
And that dude from Coldplay
Bombing Sarajevo, Mogadishu, Abu Ghraib
