

# All Over Me

Blake Shelton

There was a time  
I really used to care about what others thought  
And the way they talk  
In a crowd I used to pull away  
When she would kiss my face and touch my hair  
She didn't care who saw She was all over me  
And I used to let it get all over me  
Now to prove that I love her  
I crawl on my knees  
For the whole world to see  
Now that she's all over me  
The sky is blue  
But from where I stand in the middle of this heartache  
It sure looks gray  
All alone  
What I wouldn't give if I could feel the familiar touch  
Of her love holding me'again She was all over me  
And I used to let it get all over me  
Now to prove that I love her  
I crawl on my knees  
For the whole world to see  
Now that she's all over me  
She was all over me  
And I used to let it get all over me  
Now to prove that I love her  
I crawl on my knees  
For the whole world to see  
Now that she's all over me
