

# Bright

## Echosmith

I think the universe is on my side  
Heaven and Earth have finally aligned  
Days are good and that's the way it should be  
You sprinkle stardust on my pillow case  
It's like a moon beam brushed across my face  
Nights are good and that's the way it should be  
You make me sing 'oohh la la laa'  
You make a girl go 'oohh oohh'  
I'm in love, love  
Did you see that shooting star tonight?  
Were you dazzled by the same constellation?  
Did you and Jupiter conspire to get me?  
I think you and the Moon and Neptune got it right  
'Cause now I'm shining bright, so bright  
Bright, so bright  
And I see colors in a different way  
You make what doesn't matter fade to grey  
Life is good and that's the way it should be  
You make me sing 'oohh la la laa'  
You make a girl go 'oohh oohh'  
I'm in love, love  
Did you see that shooting star tonight?  
Were you dazzled by the same constellation?  
Did you and Jupiter conspire to get me?  
I think you and the Moon and Neptune got it right  
'Cause now I'm shining bright so bright  
And I get lost in your eyes  
Did you see that shooting star tonight?  
Were you dazzled by the same constellation?  
Did you and Jupiter conspire to get me?  
I think you and the Moon and Neptune got it right  
'Cause now I'm shining bright  
So bright  
Bright  
So bright  
Bright  
So Bright  
And I get lost in your eyes  
Tonight
