

Amazing

Foxes

Do what you want
Do what you want When I look at you the drums all start beating
And I just don't know if I'm ready or not, to do it all again See, I've got a wild heart and
I can't control it
It keeps on letting me down I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting
Do what you want
Do what you want
Take a hold of me
Do what you want
Cause my heart keeps saying
Do what you want
That you're all I need
Do what you want With a touch you bring me back to life, I'm rising
And I don't even know if I'll survive, but I'm all in See, I've got a wild heart and
I can't control it
It keeps on letting me down I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting
Do what you want
Do what you want
Take a hold of me
Do what you want
Cause my heart keeps saying
Do what you want (oh oh)
That you're all I need
Do what you want Should be running away tonight
Should be finding a place to hide
But I'm starting to feel alive
And I know, with you, tonight could be Should be running away tonight
Should be finding a place to hide
But I'm starting to feel alive
And I know, with you, tonight could be I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting Do what you want
Do what you want
Oh, my heart keeps calling me
Do what you want

Oh, my heart keeps telling me
Do what you want
Oh, my heart keeps telling me
Do what you want
Do what you want
Do what you want
Oh, all my heart keeps saying now
Do what you want
Oh, all my heart keeps saying now
Do what you want
Oh, all my heart keeps saying now
Do what you want
All my heart keeps saying now
