

Better

SYML

[Verse 1]

You came into the picture like a natural
You were unexpected, got me spiritual
I don't wanna say it, but maybe it was fate
And I can not contain it

[Chorus]

And I know, and I know it's a different love
And I know, and I know that you make me better
It's a love that will keep me holding on
And I know, and I know we only get better

[Verse 2]

I came into your picture such a broken fool
A million different pieces looking back at you
Believe me when I say this, I was giving up
But now you come and save me

[Chorus]

And I know, and I know it's a different love
And I know, and I know that you make me better
It's a love that will keep me holding on
And I know, and I know we only get better

[Post-Chorus]

Ohh, ay, ay, we only get better
Ohh, ay, ay, we only get better
Ohh, ay, ay, we only get better
Ohh, ay, ay, we only get better

[Bridge]

Love can terrify, love can start a fire
Holding on tonight, we're burning like a lighter
Everything inside us burning with desire, now

[Chorus]

And I know, and I know it's a different love
And I know, and I know that you make me better
You're enough and you keep me holding on

And I know, and I know we only get better

[Post-Chorus]

Ohh, ay, ay, we only get better

Ohh, ay, ay, we only get better

Ohh, ay, ay, we only get better

Ohh, ay, ay, we only get better
