

# No Way Out (feat. Kat Nestel) [Extended Mix]

Vicetone

You walk alone every night in the dark  
Looking for every trace to your heart  
Wanna find where you were  
Who you are  
Tonight  
I'm stranded in  
In a world full of dreams  
Out of time, out of luck, out of reach  
See the light shining in from your eyes  
Tonight The storm is coming now  
I'm your place to hide  
I see you drowning now  
Running for your life  
We can slip away  
Into the dark  
Follow me, follow me  
When there is no way out White diamonds from the love to your soul  
I'm the one, you can be calling home  
Open door, feel the rush  
When you fade away  
Fly, fly away  
Ricochet off the ground  
Find a place where you're safe  
In the clouds  
When you're lost  
I'm the light, which could guide  
The way  
The storm is coming now  
I'm your place to hide  
I see you drowning now Running for your life  
We can slip away  
Into the dark  
Follow me, follow me  
When there is no way out  
Follow me, follow me  
When there is no way out The storm is coming now  
I'm your place to hide I see you drowning now Running for your life  
We can slip away  
Into the dark  
Follow me, follow me  
When there is no way out
