

# Special Occasion

## Smokey Robinson & The Miracles

    Hmm, hmm, yeah  
    Special occasion  
    Like when you dress up  
    In your tie and tails  
    Yeah, yeah  
    Special occasion  
Every time and it never fails To give me a thrill  
    That's fresh and new  
    Every time I'm kissin' you  
    It's something that you do  
    That makes every time you kiss me  
    A real special occasion  
    Like one that calls for  
    A toast of champagne  
    Yeah, yeah, yeah Special occasion  
    Every time and  
It's hard to explain How the same old touch  
    From the same old hand  
    Can make me feel  
Like a different man I just can't understand  
    But every time you touch me  
    It's a real special occasion  
    Yeah, yeah  
    Special occasion, oh, oh yeah  
    Hmm hmm, yeah  
Ooh, beautiful music begins to play  
    You are the sun  
    That brightens up my day  
    Why don't you stay  
'Cause every time I'm with you It's a real special occasion  
    Like when in school  
    You get your cap and gown  
    Yeah, now It's a real special occasion  
    Every time you come around  
    Baby, it's a real special occasion
