

# Landslide

## Vicetone & Youngblood Hawke

[Verse 1]

Black waves where we used to stand  
Go on, give yourself a chance  
Rush away like an avalanche (woah-woah-uh-uh)  
Look down on a lonely flame  
A few steps 'til the view has changed  
Broken eyes never see the same (woah-woah-uh-uh)

[Chorus]

I never saw it coming, landslide  
Carry us away, away, away  
In a landslide, in a landslide  
I disappear into a landslide  
Never be the same, the same, the same  
In a landslide, in a landslide

[Post-Chorus]

In a landslide, in a landslide  
In a landslide, in a landslide

[Verse 2]

Soaked up in a bloodshot haze  
Woke up with you in my veins  
I don't know how to let you fade (woah-woah-uh-uh)  
Look down on a lonely flame  
A few steps 'til the view has changed  
Broken eyes never see the same (woah-woah-uh-uh)

[Chorus]

I never saw it coming, landslide  
Carry us away, away, away  
In a landslide, in a landslide  
I disappear into a landslide  
Never be the same, the same, the same  
In a landslide, in a landslide

[Post-Chorus]

In a landslide, in a landslide  
In a landslide, in a landslide

We're falling, we're falling, we're falling all the way  
We're falling, we're falling, we're falling all the way

[Chorus]

I never saw it coming, landslide

Carry us away, away, away  
In a landslide, in a landslide  
I disappear into a landslide  
Never be the same, the same, the same  
In a landslide, in a landslide

[Post-Chorus]  
In a landslide, in a landslide  
In a landslide, in a landslide

[Outro]  
We're falling, we're falling, we're falling all the way  
(In a landslide, in a landslide)  
We're falling, we're falling, we're falling all the way  
(In a landslide, in a landslide)  
We're falling, we're falling, we're falling all the way  
(In a landslide, in a landslide)  
We're falling, we're falling  
(In a landslide)
