

# Rocketman (feat. American Authors)

## MAGIC GIANT

Didn't wanna wake up this late, then I woke up  
In a daze when I looked up  
You were going away, I was choked up  
Was I a little too late? Light blinds when it hits your face  
in the morning  
Before it breaks I look outside  
The streets have changed, where's our city?  
Was I a little too late? I was a rocket man for you  
But what you needed was a diver, baby  
Was I a little too late?  
I was a rocket man for you  
But what you needed was a diver, baby  
Was I a little too late?  
You know I never wanna leave you  
And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing You know I never wanna leave you  
And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing Thunder and I lost my mind in a fever  
Something I can't find in a mirror  
Squint my eyes but I can't see her  
Was I a little too blind? My heart breaks thought I saw your face in a movie  
Like a script you wrote looking through me  
There's a missing scene in our story  
Was I a little too high?  
I was a rocket man for you  
But what you needed was a diver, baby  
Was I a little too late?  
I was a rocket man for you  
But what you needed was a diver, baby  
Was I a little too late? You know I never wanna leave you  
And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing You know I never wanna leave you  
And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing Was I a little too late? I was a rocket man for you  
What you needed was a diver, baby  
Was I a little too late?  
I was a rocket man for you  
But what you needed was a diver  
Deep down in your crazy blue You know I never wanna leave you

And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing You know I never wanna leave you  
And I don't wanna leave you now  
But I can't stop  
Just as long as I'm breathing
