

All to Myself

Guy Sebastian

Your not like any girl I've ever seen
And it's clear that your no good for me
But hard as I try baby, I just can't stay away
So in my mind I play out this fantasy
That one day you will end up here with me
But I must be crazy cause I know you're only out to play

[Chorus:]

But I want you all to myself

I want you all to myself

A little sample just won't do

I gotta have all of you

All to myself, I want you all to myself

Now that I've had my own preview

I gotta have all of you

There's a fire in your eyes that can't be tamed
And I don't know how I got caught in this game
But somehow you made me feel like

There is no one else

I know that I should know better

This never will be forever

But baby I don't wanna share your lovin

So until the day your mine girl I ain't gunna rest

[Chorus]

So tell me what I gotta say to make you stay

Cause I bet my intentions clear as day

Come on baby

You're like my last piece of candy and I don't wanna share it

Cause I want you all to myself

I want you all to myself

A little sample just won't do

I gotta have all of you

All to myself all to myself

I want you all to myself

Now that I've had my own preview

I've gotta have every little part of you

No one else will do I gotta have all your lovin baby

If you give your love to me

Baby I will never leave no no no

You can count on me I gotta have all of you

All to myself, Baby all to myself
