

4X4

HARDY

It's what the four by four is for
It's what the four by four is for
It's what the four by four is for
It's what the four by four is for

So ya got a truck
Hell, it's even got a hitch
You keep it on the blacktop thinkin' that you're hot stuff
Take it off in a ditch
And then you get stuck
It ain't fun no more (Yeah)
You got nowhere to turn, one day you'll learn
It's what the four by four is for
It's what the four by four is for
Son, it's what the four by four is for

Ever since they been a slapping
Them "Hell yeah" stickers up on the side
Them good old boys been feeling macho
In that quatro wheel drive
It gets her pretty little red dirt flip flop feet in the door
Then ya take it on out, ya drop it on down
That's what the four by four is for

It's what the four by four is for
It's what the four by four is for (Son)
It's what the four by four is for
It's what the four by four is for

Yeah, she don't mind the mud
And she loves gettin' lost
From way up on the ridge to down under the bridge
Kudzu or Spanish moss
Man, when she climbs in, she's ready to roll
'Cause she knows there ain't nowhere
That 6.0 Powerstroke can't go
That's what the four by four is for (Yeah)

Ever since they been a slapping
Them "Hell yeah" stickers up on the side
Them good old boys been feeling macho
In that quatro wheel drive
It gets her pretty little red dirt flip flop feet in the door

Then ya take it on out, ya drop it on down (Drop it down)
That's what the four by four is for

It's what the four by four is for
It's what the four by four is for (Son)
It's what the four by four is for
It's what the four by four is for (Yeah)

Ever since they been a slapping
Them "Hell yeah" stickers up on the side
Them good old boys been feeling macho
In that quatro wheel drive
It gets her pretty little red dirt flip flop feet in the door
Then ya take it on out, ya drop it on down (Drop it down)
That's what the four by four is for

It's what the four by four is for
It's what the four by four is for (Son)
It's what the four by four is for
It's what the four by four is for (Yeah)
It's what the four by four is for
It's what the four by four is for (Son)
It's what the four by four is for
It's what the four by four is for (Yeah)

It's what the four by four is for
