

# Cool People

## Chloe x Halle

[Verse 1: Halle]

Forgive me now my heart  
It don't know where to start  
My ceilings fell apart  
I've been down on the regular  
I've seen things with my retina  
These old days I don't feel that much

[Chorus: Halle]

But darling when you smile it's like the rain dries out  
Now there's no more room for clouds  
Got me singing Hallelu, oh Hallelu oh  
When you hold my hand it just reminds me how  
There's still cool people in the world

[Verse 2: Chloe]

Hear me far away  
I'm done with yesterday  
I'm living for today  
So now I've been good on the regular  
I've seen things even clearer  
These new days I've been lifted it up  
High

[Chorus: Chloe]

Cause darling when you smile it's like the rain dries out  
Now there's no more room for clouds  
Got me singing Hallelu, ah Hallelu oh  
When you hold my hand it just reminds me how  
There's still cool people in the world

[Bridge: Chloe x Halle]

Thought I'd never know, love like this before  
I let go then I run and we run with the rivers  
You helped me fly, you give me life

[Chorus: Chloe x Halle]

Cause darling when you smile it's like the rain dries out  
Now there's no more room for clouds  
Got me singing Hallelu, ah Hallelu oh

When you hold my hand it just reminds me how  
There's still cool people in the world
