

# I Can Only Think of One

Dierks Bentley

pullin' into the fast lane on the leavin' side of town  
just me and the dreams i've left undone  
there's a lot of roads i can point this chevy down  
but i can only think of one on this river of concrete slab a man could drive for days  
and let his imagination run  
there's time for a million memories along the way  
but i can only think of one, oh, i can only think of one summer down in Galveston, underneath  
the stars  
a fire burnin' on the sand, ragin' in our hearts  
if there's a time in my whole life i've really been in love  
i can only, i can only, i can only think of one i'm not gonna back 'til i'm back to where you are  
to undo the damage that's been done  
there may be a hundred ways to mend this broken heart  
but i can only think of one, oh, i can only think of one  
summer down in Galveston, underneath the stars  
a fire burnin' on the sand, and you back in my arms  
if there's a time in my whole life i've really been in love  
i can only, i can only, i can only think of one
