

# Don't Believe Everything You Think

Lee Brice

I know your thinking that you got me all figured out,  
A music man like me ain't ever gonna settle down  
And your just waitin for it  
For a day that you'll convince me  
Just the thought of weddin bells would make me wanna runaway  
But all i can say is Don't believe everything you think  
Baby i might just have i ring in my pocket right  
Now so settle on down girl  
Reel that wild imagination in  
Baby come on back to me again  
Yeah that minds a funny thing  
Don't believe everything you think  
Everytime wer see another pretty girl go walking by  
I see your wheels turning the way you whatch my eyes  
Girl i don't know why  
You let it cross your mind that i aint crazy over you  
And i don't want all the very same things you do  
Baby so all i'm gonna say is Don't believe everything you think  
Baby i might just have i ring in my pocket right  
Now so settle on down girl  
Reel that wild imagination in  
Baby come on back to me again  
Yeah that minds a funny thing  
Don't believe everything you think Girl you need to get a get on outta your head  
and get on in to your heart instead like i said  
Don't believe everything you think baby i might  
Just have a ring in my pocket right now  
So settle on down girl  
Reel that wild imagination back in  
Baby come on back to me again  
Yeah that minds a funny thing don't believe everything you think  
mmm yeah that minds a funny thing don't believe everything you think
