

# Top of the World

Mandy Moore

For a time I felt my faith it must be hiding  
Searching through the sky  
Hoping to find a way, a way  
To get me through the day  
Wonder where I belong  
Is this where I should stay  
Chorus:  
You Lift me up when I am falling  
You're my friend when I was calling  
Now I'm on top of the world,  
Top of the whole wide world  
Yeah you always been believing  
Give my life a whole new meaning  
Now I'm on top of the world,  
Top of the whole wide world  
It's the strength in me  
It seems I have forgotten  
Now I, realize today I'm starting to dream again, again  
Was a matter of when  
I guess we all lose our way now and then  
You Lift me up when I am falling  
You're my friend when I was calling  
Now I'm top of the world  
Top of the whole wide word  
Yeah you always been believing  
Give my a whole new meaning  
Now I'm on top of the world  
Top of the whole wide world  
You lift me up when I was falling  
You lift me up when I was falling  
Lift me up when I am falling  
You're my friend when I was calling  
Now I'm on top of the world  
Top of the whole wide world  
Yeah you always been believing  
Give my life a whole new meaning  
Now I'm on top of the world,  
top of the whole wide world  
Yeah you always been believing  
Give my life a whole new meaning  
Now I'm on top of the world,  
top of the whole wide world  
Yeah, top of the whole wide world!  
Yeah you always been believing  
Give my life a whole new meaning  
Now i'm on top of the world,

top of the whole wide world!
