

Better With You

Austin Mahone

[Verse 1]

It's Saturday
I finally got you to myself on your off day, oh yeah
I know a place
Where we can shut the whole world out and hide away, away

[Pre-Chorus]

See, the cold drinks have a sweeter taste
Whenever you're around and whenever you're around
And the bedsheets feel a different way
And it feels good, somewhere downtown
Whenever you're around me
Whenever you're around
And it should be, come as no surprise

[Chorus]

I like it better with you
There's nothing that compares to your company
I like it better with you
You come around and change how I'm seeing things, oh yeah
So baby don't you run away, run away, run away
'Cause I just wanna stay at dawn
I like it better with you
There's nothing that compares to your company
I like it better with you

[Verse 2]

A city night
Is so enticing, but I'd rather stay inside with you
So lay beside
Me and you do all the things we wanna try, oh yeah

[Pre-Chorus]

See the cold drinks have a sweeter taste
Whenever you're around, whenever you're around
And the bedsheets feel a different way
And it feels good, somewhere downtown
Whenever you're around me
Whenever you're around

And it should be, come as no surprise

[Chorus]

I like it better with you
There's nothing that compares to your company
I like it better with you
You come around and change how I'm seeing things, oh yeah
So baby don't you run away, run away, run away
'Cause I just wanna stay at dawn
I like it better with you
There's nothing that compares to your company
I like it better with you

[Bridge]

Traffic ain't bad when you're here with me
I even love the rain when you're here with me
I don't really care what we do, long as I'm there with you, baby
Traffic ain't bad when you're here with me
I even love the rain when you're here with me
I don't really care what we do
Nah...

[Chorus]

I like it better with you
There's nothing that compares to your company
I like it better with you
You come around and change how I'm seeing things, oh yeah
So baby don't you run away, run away, run away
'Cause I just wanna stay at dawn
I like it better with you
There's nothing that compares to your company
