

# Gonna Get It

## Mates of State

You could say I am the only one  
Who could still betray your trust  
And I could say I do what's natural  
But human nature's not enough  
    Could it be that  
    I can see an empire  
    It might be not there  
    Maybe is ours to take  
    We're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
Now we're gonna get it, now  
    They gave you the ride  
But you believed that you might  
    Take time running  
    All I need  
    Connect with me  
    There is an empty see  
All I need is a crown ready  
    Where on the ledge to me  
And I won't ask for a solitary night  
'Cause I can see your strength is not much  
And I don't need a crown of diamonds  
And I contin-continue all  
    Could it be that  
    I can see an empire  
    It might be not there  
    Maybe is ours to take  
    We're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
    Now we're gonna get it  
Now we're gonna get it, now  
    They gave you the ride  
But you believed that you might  
    Take time running  
    All I need  
    Connect with me  
    There is an empty see

All I need is a crown ready  
Where on the ledge to me  
All I need  
Connect with me  
There is an empty see  
All I need is a crown ready  
Where on the ledge to me
