## Omarion

Shh  
Girl, girl, girl, girl, girl, girl, girl  
All I can say is  
Girl, girl, girl, girl, girl, girl, girl  
Let's go I don't need nobody else around, see  
Love the way you compliment my style  
Though you may end up bein' my only girl  
'Cause when you're with me you're my whole world Like when it's just me and you  
Vibe is crazy between us two  
You're my homie, my lover indeed and my friend  
Now I said this before, I'ma say it again  
Now here is the situation, I like what we've got happenin'  
And I don't want nothin' comin' in between both me and you  
I'll let you be lieutenant if you let me be captain  
Tell me if that's cool Baby, I want you to be my entourage  
Super fly chick  
You could be my personal superstar  
Super fly chick Baby, I want you to be my entourage  
If you want then we could take this very far  
Super fly chick You're a star in your own right  
At times you steal the whole spotlight  
I don't mind, girl, you're fine, put a smile on my face  
Besides who want a chick that no dude would chase  
Sometimes I know you're unsure  
Wonder if this will endure  
Don't make me make no promise that I can't keep  
'Cause it's cool how it is, let's not complicate things, girl Here is the situation, I like what we've  
got happenin'  
And I don't want nothin' comin' in between both me and you  
I'll let you be lieutenant if you let me be captain  
Tell me if that's cool Baby, I want you to be my entourage  
Super fly chick  
You could be my personal superstar  
Super fly chick Baby, I want you to be my entourage  
If you want then we could take this very far  
Super fly chick You're a star, that you are  
Be my girl, share my world  
Come on girl, super fly chick Baby, I want you to be my entourage  
Super fly chick  
You could be my personal superstar  
Super fly chick Baby, I want you to be my entourage  
If you want then we could take this very far

Super fly chick
