

# Can't Get Past the Lips

## BRONCHO

[Verse 1]

I cut your brakes, won't ya cut my mouth?  
I caught ya moving, trying to up and go south  
Well I really wanna shake those hips  
But I can't get past those lips  
What's the deal, what ya working with?  
Takes a week just to think about it  
Well I really can't get the club mad  
If I really can't get the club led  
And I gotta find a way around it  
And I can't get past those lips

[Verse 2]

It's about time to pull your punch  
About time to pull your punch  
Now you're gonna be listening  
I don't think you're listening  
I caught a girl probably sucking on bricks [?]  
And I caught her with the Robo-Grip  
Smile bliss and you tell me it's just a joke  
But now you're fishing with the businessman  
And we gotta keep our electric  
But I can't get past that lip

[Verse 3]

Well ya gotta find a way to get me out of this town  
'Cuz it's the one keeping me going round and round  
I've come to terms with this  
But I'm never getting past those lips
