

Dirty Hat

Upchurch & Bottleneck

[Intro: Upchurch & Bottleneck]

Church
Bottleneck
Hah

[Verse 1: Upchurch]

I'm that new age, Johnny Cash, nasty chip up on my shoulder
Pick your favorite country rapper, everybody know I'm golden
Got the biggest numbers in my lane of music and I tip my hat in the country charts
And I dip out for a couple weeks and I come back with even better art
I dropped six albums in two years and every damn one hit the Billboards
And I kicked a twist and hit number two with that country album that I made for 'em
Then Kane Brown called the same night, said I dropped that at the worst time
Same damn minute as Chris Stapleton, he was number 1 and I was right behind
And I damn near about shit my pants when Summer Love broke top 5
Ghost been all about a month or so and that video got about a million
And I murder everything I'm gettin' on, I'm in the motherfucking game like Capcom
Fuck around then come get capped on by a white boy from the sticks y'all

[Chorus: Upchurch]

I'm just ridin' through the country with my seat leaned back
Thinkin' 'bout all my success underneath this dirty hat
Underneath this dirty hat, underneath this dirty hat
Thinkin' 'bout all my success underneath this dirty hat

[Verse 2: Bottleneck]

Well I've been here from the start y'all, leavin' 'em stuck with lockjaw
Fuckin' the game up raw dog and takin' mine like a sawed off
I'm top 5 bitch in every country rappin' category
All I want is money, fuck the fame, I don't need the glory
Y'all can have it back, fakin' country when you rap
I'm as real as it gets and I still wear these dirty hats
I'm a honkey ass hustler straight up cracker from the bottom
If you talk about your numbers, fake bitches, y'all ain't got 'em (haha)
We're steady makin' hits, Redneck Nation's how we livin'
I'ma make a bold prediction, I bet this one hits a million
Bottleneck and Upchurch, how the hell we gonna miss it
And all y'all motherfuckin' haters, well y'all know where to kiss it
I'm just drivin' through the country with my seat leaned back
There's a bunch of fake bitches in this game and that's a fact

I've been here for a while, don't give a damn about no views
I'm a legend in this game and there ain't nothin' else to prove

[Chorus: Upchurch]

I'm just ridin' through the country with my seat leaned back
Thinkin' 'bout all my success underneath this dirty hat
Underneath this dirty hat, underneath this dirty hat
Thinkin' 'bout all my success underneath this dirty hat

[Chorus: Upchurch]

I'm just ridin' through the country with my seat leaned back
Thinkin' 'bout all my success underneath this dirty hat
Underneath this dirty hat, underneath this dirty hat
Thinkin' 'bout all my success underneath this dirty hat
