

Wake Up Call

Hawthorne Heights

Swim through these waters
My lungs collapse as I'm gasping for air
I'll breathe you in (and I'll breathe you in)
You are my oxygen alone Through arteries untold, your skin is pale, my body's cold
Way down, deep down in my lungs
I can hear our sweet decay So spill my blood (So spill my blood)
Midnight skies turn scarlet red
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall into the night
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall
Everyone and everything feels like it slips away
Way down deep down in my lungs, I can hear you as you fade So spill my blood (So spill my
blood)
Midnight skies turn scarlet red
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall into the night
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall Wake me up from this nightmare
Wake me up, I know that i am drowning in the blood
Wake me up from this nightmare
Wake me up, I know I am drowning in the blood from a pitch black heart
Cut my throat
Spill my blood
Pitch black heart
So spill my blood (So spill my blood)
Midnight skies turn scarlet red
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall into the night
Say "so long," say "goodnight," and just hold out your hand
To catch me if I fall
