## Starlito

[intro-Starlito]

Bruh I'm in the booth bruh, Hello  
It ain't all bad, but it ain't all good neither, Shit  
Yeah

[Verse 1-Starlito]

I'm in the lab drinking coffee, (drinking coffee)  
Devil all on me trying to get him off me. (get em off me) Yeah  
Felony charge got to get it off me  
Tomorrow I'm walking in my lawyer office I'ma let my money do the talking  
Trying to quit smoking, but now I'm nauseous, cautious from all my losses  
Distant, they got to be close to cross you, all of these labels keep sending offers. (sending offers)  
Might just sign one, and the run off, I don't need they money I'm bossed up (bossed up)  
Still got them on stand-by could call the plug  
But what's gon' happen to my family if I get caught up still on that same shit that I always was I  
can't sleep 'till they all wake up  
(It's Lito)

[Chorus-Starlito]

Late night, I'm high as fuck, I'm seeing shit  
I'm riding low just me and shit  
This for my niggas that's grinding up the sea of bread  
You can't be greedy, but when you got enough you to quit  
Who else gon' tell you this  
They call this leadership

[Verse 2-Starlito]

I'm on my grind, out my mind  
The blind leading the blind  
I told lil' mama I love you  
She told me hold it down  
Then I told her I'd be home early, but she know that I'm lying  
Barely stop at stop signs, I'm on the go for mine  
Pouring up folks from coast to coast, yeah slow motion some time  
Living fast, Paying for an abortion, I don't know if it's mine  
Smoked a quarter back to back, I'm like Romo with that nine, and it shoot thirty times like  
Kobe Bryant  
Still ballin' though I'm close to retiring, I recorded this to be snorted, yeah that's a dope line  
La Cosa Nostra motor I don't slow up for the sierns, take a moment decide if I'm pulling over  
this time

[Chorus-Starlito]

I'm high as fuck, I'm seeing shit

I'm riding low just me and shit

This for my niggas that's grinding up the sea of bread

You can't be greedy, but when you got enough you need to quit

Who else gon' tell you this, They call it leadership
