

# In The Woulds (feat. Chase Rice & Lauren Alaina)

## BRELAND

I would, baby, cut them girls off  
You know I would, baby, it'll all be worth it  
Knock on wood, baby, tell me what you want  
I would do it in a heartbeat

Girl, you really got me lost (Lost)  
Got me lost in the woulds  
Yeah, you really got me lost (Lost)  
Uh, doing things I never would  
(Ooh, yeah, yeah)

Girl, you've got me higher than them Georgia pines  
Don't matter what I do, can't get you off my mind  
You've got a youngin' thinking that, I'll never get this chance again  
Make me wanna bend the knee, put a ring on your hand

You're my type, baby  
Sweet tea and a Bud Light, baby  
You shine brighter than neon lights  
Down at the Honky Tonk  
You're anything a man could want  
(Ooh, yeah0

I would, baby, cut them girls off  
You know I would, baby, it'll all be worth it  
Knock on wood, baby, tell me what you want  
I would do it in a heartbeat (Yeah, yeah)

I would, baby, cut them girls off  
You know I would, baby, it'll all be worth it  
Knock on wood, baby, tell me what you want  
I would do it in a heartbeat

Girl, you really got me lost (Lost)  
Got me lost in the woulds  
Yeah, you really got me lost (Lost)  
Uh, doing things I never would  
(Ooh, yeah, yeah)

Yeah, boy, I should listen to my momma  
I wanna call you, but you know she told me not to

Fall in love with a guy like you  
I think I'm 'bout to break that rule, yeah  
I'll be there riding in your shotgun seat  
I'll be the sugar when you need some sweet  
When you write about love, who you think of  
And the only one to touch your truck

I would, baby, cut them girls off  
You know I would, baby, it'll all be worth it  
Knock on wood, baby, tell me what you want  
I would do it in a heartbeat (Yeah, I would, hell yeah)

I would, baby, cut them girls off  
You know I would, baby, it'll all be worth it  
Knock on wood, baby, tell me what you want  
I would do it in a heartbeat

Girl, you really got me lost (Lost)  
Got me lost in the woulds  
Yeah, you really got me lost (Lost)  
Uh, doing things I never would (Ooh, yeah, yeah)
