

# Beamer Boy

## Lil Peep

[Intro]

Man, I don't know what the fuck goin' on lately, bro  
Everybody actin' real different and shit  
Ain't nobody, nobody was talkin' to me like a few months ago  
And now everybody hittin' my phone up and shit

[Verse]

I'm a mothafuckin' schema boy, I'm a dreamer boy  
I love a girl that don't even fuckin' need a boy  
Baby, I'm a beamer boy, I need a beamer, boy  
I want a Z3, that's a two-seater, boy  
Okay, I pull my cash out, shawty pass out  
Take her ass out, then I spaz out  
Okay, yeah, I hit that, shawty, get back  
I got death notes, where my list at?  
Yeah, I'm in my zone now, I put my phone down  
I'm on my own now, I'm on my own now  
Ya girl, she wanna go down on a real one  
I hit JGRXXN, like "What's the deal bruh?"  
You see me doin' shows now, I'm a pro now  
I got hoes now and I got some dough now  
But they don't wanna hear that, they want that real shit  
They want that drug talk, that "I can't feel shit"  
I'm never comin' home now, all alone now  
Can't let my bros down, can't let my bros down  
I feel like I'm a no one, that's what they told me  
I'ma show ya, baby, I was chosen, ayy
