

Lighthouse (feat. Renè Miller)

Mike Perry

Why, why is it so hard
Oh why, I just can't seem to let you go
Yeah I know that I should probably move on
But I don't wanna believe it's all gone
So I want you to know, to know Wherever you go
I'm not gonna hide out
I'll be your lighthouse
Whatever you do
I'll be your fire when it's cold out
I don't care if it's gonna break me
Don't give a damn, I'll be here waitin'
Wherever you go
No matter what you do
I'll keep the lights on
I'll keep the lights on
I'll keep the lights on
How, how did we get here
Oh now, now I just wish I held you closer
Yeah I know that I should probably move on
But I don't wanna believe it's all gone
So I want you to know, to know Wherever you go
I'm not gonna hide out
I'll be your lighthouse
Whatever you do
I'll be your fire when it's cold out
I don't care if it's gonna break me
Don't give a damn, I'll be here waitin'
Wherever you go
No matter what you do
I'll keep the lights on
I'll keep the lights on
I'll keep the lights on
I'll keep the lights on I don't care if it's gonna break me
Don't give a damn, I'll be here waitin'
Wherever you go
No matter what you do
I'll keep the lights on
