

Astronaut Kid

YoungBoy Never Broke Again

CashMoneyAP

Oh, oh, oh, yeah, yeah

Prepare for launch in 3... 2... 1... I shot to the top just like I'm a rocket (like I'm a rocket)

I ain't have a dollar inside of my pocket (inside of my pocket)

Put that on my gang, I swear I ain't stoppin' (I ain't stoppin')

Strapped up and I'm vest up, I'm an astronaut kid

They say pain like meteorites

I got the world in my eyes

The chosen one, I got the prize

I got my niggas on my side

Feel like I need some space, I'm sippin' on Ace in space

Lot of blue money in the bank, old hundreds in the case

I'm in a high speed chase, on the way, I can't be late

Corvette, let's do a race, hope I see another day

Sip drank, that's every day, gave a check to KK

You know I love you, I was talkin' to Tay-Tay

Whenever you call me you know that I'm comin'

Get that backend and I stack up that money

Up with that chopper, you know I'ma dump it

I won't let a nigga take nothin' from me

Tell me your secret, it stay on the under

I swear to God that I won't say nothin'

Just had sex with my baby mama

You better not tell my girl nothin'

Spent a half a mil, and I ain't go broke yet

Spent eighty thousand dollars on a brand new 'Vette

I told that ho she a dog, I'ma take you to the vet

Suck on your blood like a tick, let her come suck on this dick

I don't give a fuck what they say, I'm already rich

All my diamonds glist', ten thousand on my bitch

I shot to the top just like I'm a rocket (like I'm a rocket)

I ain't have a dollar inside of my pocket (inside of my pocket)

Put that on my gang, I swear I ain't stoppin' (I ain't stoppin')

Strapped up and I'm vest up, I'm an astronaut kid

They say pain like meteorites

I got the world in my eyes

The chosen one, I got the prize

I got my niggas on my sideDiamonds for my bro, these people would never know

Everything that we been through, that money did nothin' but grow

Got a styrofoam full of dope, I'm in the UFO

Got a penthouse full of hoes, and they don't want to go

Walk in the club and I'm strapped with that pole

Laugh and I live it up with Baby Joe
I'm not from Earth, I'm from out of the globe
My and my niggas take over your turf
Walkin' on stage with NBA merch
Gone off the drank and I need me a nurse
Blast off, I'm an astronaut
Came from nothin', don't belong on Earth I shot to the top just like I'm a rocket (like I'm a
rocket)
I ain't have a dollar inside of my pocket (inside of my pocket)
Put that on my gang, I swear I ain't stoppin' (I ain't stoppin')
Strapped up and I'm vest up, I'm an astronaut kid
They say pain like meteorites
I got the world in my eyes
The chosen one, I got the prize
I got my niggas on my side
