

# We Will Rise

## Throwdown

Rise above  
Can we rise? We will rise  
Yeah we will, rise above the lies and move on  
Can we rise? We will rise  
Yeah we willWe are the hated, we are the raging plague  
We are the ill-fated, we grow stronger each day  
And we rise  
We've built a new world  
Underneath the one we hate  
Outside there is no love  
But down here we're one  
And we'll rise above  
Can we rise? We will rise  
Yeah we will, rise above the lies and move on  
Can we rise? We will rise  
Yeah we willWe are the hated, we are the youth betrayed  
We are the ill-fated, we struggle each day  
And we rise  
This is a new blood, this is a family  
The voice of the unloved  
We will rise as one, and we'll rise aboveCan we rise? We will rise  
Yeah we will, rise above the lies and move on (2x)We gonna rise above the lies and move on,  
come on!  
Can we rise? We will rise  
Yeah we will, rise above the lies and move on  
Can we rise? We will rise  
Yeah we will, rise above the lies and move on
