

# Double Edged Sword

## Merk

Hey yeah yeah yeah

Yeah yeah yeah yeah

[Hook]

I love it, I love it, I love it, I love it

The money, the bubbly, the honey, the hunnids

I love it, I love it, I love it, I love it

The money, the bubbly, the honey, the hunnids

I love it, I love it, I love it, I love it (The money)

I love it, I love it, I love it, I love it

I love it, I love it, I love it, I love it (The money)

The money, the money, the money, the money

[Verse 1: MERK]

Hiroshima on this Kawasaki

These motherfuckas want me out the way

Your shit is hot, but it needs wasabi

You know the feeling when you getting paid

They act like seasons man, they tend to change

They call it treason when you leave the state

Inner/In a city, inner conflict

Im just trynna live

In a college full of convicts

I don't have no friends

I got black diamonds on blacked out wings

'Cause angels sin

If innocence was common sense

They'd let us in

(I love it...The money)

[Hook]

I love it, I love it, I love it, I love it

The money, the bubbly, the honey, the hunnids

I love it, I love it, I love it, I love it

The money, the bubbly, the honey, the hunnids

I love it, I love it, I love it, I love it (The money)

I love it, I love it, I love it, I love it (The money)

I love it, I love it, I love it, I love it

(The money)

[Verse 2: MERK]

The life that I'm livin

Manana is not promised

I'm living it loco

I'm ballin on water

Hop in the pool

And I serve em the ocho

I love it, I love it

The problems, the commas

The profits/prophets are promised

The commas, the commas

The commas, the commas, the coppas are coming

The commas, the commas

The comments, the comments, you're welcome to judge me

You're welcome to touch me

Back when they ain't want me

Back when I was ugly

But now I'm poppin

But now I'm all in

Fuckin the models

Sippin on bubbly

Livin it largely

From country to country

To country, to country, to country, to country

[Outro]

Riding for life

So I got to leave tonight

Girl it's going to be alright

Just a little bit of time

She said oh so you [?]

You're always on the other end

Can't wait for you get back home
