

Lockdown

Drimsbaby

[Verse 1]

Look, everybody, these days are, bunch of hypocrites
From, the pastors, government to myself
Yeah I'm guilty
More?of?a titty guy?but I still love booty
Don't judge
I'm?freeman I say what I want, and
This is free food?for?thought?I'm a music?restaurant
I could never?go wrong, rest assured, lockdown
Got a nigga daydreaming
Baby girl can you come to my crib
She said sure
I' ma be there right in
(coughs)
Wait a minute did you cough
I was high and so I thought, it was corona
And then I told her baby
Look it's better that you stay at home
Okay, I'm looking at her pictures and she got some nice titties
And I really wanna smash
I'm sick and tired of wanking
So now I'm thinking
Do I fuck with my hand sanitizers and napkins
(Haha)
Opened my Instagram and everybody live
Doing videos in car but you don't even drive
Living like I got nine lives
Hol' up
I think it's kinda stupid throwing millions in the club
Lockdown, got a nigga feeling like it's Birdbox
Hair growing long, kinda turning into dreadlocks
Got my house feeling like The Box
Roddy rich
I don't wanna die young of boredom
Running outta cash I might prolly sell my Jordan's
Oh you think I'm rich, rich
Cause I fuck with thick bitch
Dick long like a broom a witch ride
[hook]
Let's do things right
Baby get on top that's a green light
Stick my tongue in till you fucking cry
When it's over put my dick in your fucking spine

We gon do it twice
Let's do things right
Baby get on top that's a green light
Stick my tongue in till you fucking cry
When it's over put my dick in your fucking spine
We could do it twice

[Verse 2]

Still stuck up with couple of questions
World bank gave Nigeria a couple of billions
But they still steal from civilians
We gotta fight back
Take back what is ours
So I'm giving you the voice
I'm only human, in the mirror
See a superhero and the vision clearer
Ouu weee
Every day I smoke weed
Soo high I can't find my own feet
I'm watching Twitter porn
Soo high I can't see my own tweets
Mehn fuck it ama call my side chick
I gotta cheat, you
Gotta understand that I'm a man I gotta let it out
I don't care about your boyfriend
Lemme prove that I'm a better man, baby

[Verse 2]

Let's do things right
Baby get on top that's a green light
Stick my tongue in till you fucking cry
When it's over put my dick in your fucking spine
We gon do it twice
Let's do things right
Baby get on top that's a green light
Stick my tongue in till you fucking cry
When it's over put my dick in your fucking spine
We could do it twice
