

Hallucinations (feat. R I T U a L)

R3HAB

I can't fight this, got my eyes fixed on you
I've seen something new
Must be hallucination
In my mind I realize you're not true
Must be something we do?
We're just hallucinations We're just hallucinations
We're just hallucinations
We're just hallucinations
I can't fight this, got my eyes fixed on you
I've seen something new
Must be hallucination
In my mind I realize you're not true
Must be something we do?
We're just hallucinations We're just hallucinations
We're just hallucinations
We're just hallucinations Swore I saw you coming over here
Happiness is just controlling fear
We're just hallucinations
We're just hallucinations
We're just hallucinations We're just hallucinations
